▼ TENTANG SAYA

I am a passionate individual with a strong interest in web programming, particularly in JavaScript. I have developed a solid foundation in web development, mastering HTML and CSS, along with proficiency in basic JavaScript. I am eager to deepen my skills and explore the dynamic world of web technologies.

▼ MY SKILLS

- HTML and CSS
- CSS Framework
- Javascript
- ReactJS and React Native

▼ EDUCATION

- Politeknik LP3I, 2021 – 2024
- SMAN 1 Cimahi, graduated: 2019

▼ ORGANISASI

I have experience in organizational activities by participating in the Campus Introduction Week and the Student Creativity Week (LKM). Although I was not consistently active, I was entrusted with responsibilities in both roles:

- **New Student Campus Life Introduction (PKKMB)**
 - **Position:** Event Coordinator
 - **Responsibilities:** Ensuring the smooth running of the event and maintaining participant discipline.
- **Student Leadership Training (LKM)**
 - **Position:** Committee Member
 - **Responsibilities:** Involved in planning, coordinating, and executing various activities.

▼ PENGALAMAN

- **Software Engineer & Data Analytics at PT Revolusi Cita Edukasi**

July 2023 - November 2023

I gained experience at PT Revolusi Cita Edukasi as a participant in the MSIB Kampus Merdeka program, where I learned to create websites, starting from simple HTML and CSS to using Node.js as a backend framework.

- **Intern Programmer at PT Javan Cipta Solusi**

May 2024 - October 2024

Entrusted for developing internal websites, including a permit management system and a QA Touch clone for the Quality Assurance team. I also tackled bug fixes and feature enhancements for client websites, which refined my attention to detail and ability to work in a fast-paced, collaborative environment
